WORK HISTORY

August 6, 2012 - Present: *Chief Executive Officer, WellFlorida Council, Inc.*

Responsibilities include full executive leadership of WellFlorida Council, Inc., coordinating and supporting the activities on WellFlorida's Board of Directors and management and oversight of all day-to-day financial, personnel and programmatic operations. Also responsible for preparation and execution of the overall WellFlorida Council budget as well as the budgets of the individual programs that comprise the overall WellFlorida budget of nearly \$10 million. Additional responsibilities include working with community-based organizations on key health issues throughout WellFlorida's 16-county service region and the state and serving as WellFlorida's liaisons on a wide array of community boards and in community meetings. Also continue to consult on various needs assessment and community health improvement planning projects including development and management of various health data collection and analysis processes. Public speaking is an ongoing and essential component of this position.

August 2009 – Present: *Adjunct Faculty, Department of Health Services Research Management and Policy, College of Public Health and Health Professions, University of Florida*

Responsibilities include the development and instruction of the curriculum each fall (August – December) for both the live and online versions of the Evidence-Based Management of Public Health Programs course which is required in the Department of Health Services Research, Management and Policy Master's degree program. This course is designed to educate students regarding quantitative methods to aid in management and decision-making processes in the public health context.

WORK HISTORY (Cont.)

March 31, 2008 – August 5, 2012: Chief Operating Officer, WellFlorida Council, Inc.

Primary responsibilities included the development and preparation and execution of WellFlorida programmatic budgets with program managers and assisting the Chief Executive Officer in developing, preparing and executing the overall WellFlorida budget. Also had direct supervisory authority over WellFlorida's program managers and managed and oversaw personnel and operations of these programs including oversight of contract management activities for more than \$9 million in state and federal funding. The Chief Operations Officer was also responsible for the facilitation of the development of the WellFlorida Strategic Plan with the Board of Directors.

Additional responsibilities included working with community-based organizations on key health issues throughout WellFlorida's 16-county service region and the state and serving as WellFlorida's liaisons on a wide array of community boards and in community meetings. During most of this tenure as Chief Operations Officer, continued to serve as the Director of Community Initiatives and provided day-to-day management of the health planning staff. As the Director of Community Initiatives, I consulted on various needs assessment and community health improvement planning projects including development and management of various health data collection and analysis processes. Throughout my tenure as the Director of Community Initiatives, I coordinated various non-profit and government-appointed boards and provided them administrative and technical assistance. Public speaking was an ongoing and essential component of this position.

February 12, 2007 – March 30, 2008: Associate Director, WellFlorida Council, Inc.

The Associate Director was new position which was created to assist the Executive Director with strategic operations of WellFlorida Council. The Associate Director was a temporary position that transitioned into the Chief Operations Officer once the Board of Directors formally created the position. Duties and responsibilities were identical to those described above for the Chief Operations Officer. In addition, the Associate Director was maintained as the Director of Community Initiatives and participated in health planning activities as described above and below in the Senior Planner section. Public speaking was an ongoing and essential component of this position.

January 2008 – May 2008: Adjunct Faculty, Webber University, Ocala, Florida

Responsibilities included development and instruction of the curriculum for the *Introduction to Health Policy Course* which is a requirement for Webster University's Master in Healthcare Administration degree.

July 1, 1998 – February 11, 2007: Senior Planner, WellFlorida Council, Inc.

As the Senior Planner, the primary responsibility was to be the lead planner on health planning projects throughout the 16-county region and state and to seek, secure and manage grant funds for in-house health planning projects.

Major duties, in addition to extensive community interaction on behalf of the Council, included supervision of Community Initiatives staff; preparing health plans, such as the *2003-05 District 3*

WORK HISTORY (Cont.)

Health Plan; gathering and interpreting data from a wide range of health related organizations; developing recommendations for community action using national, state, and local criteria; writing and presentation of special reports to public audiences; and providing technical assistance and general information to community groups and individuals regarding healthcare policies and issues. Other primary tasks included conducting health needs assessments, evaluation studies, and other special studies for organizations and special populations.

Projects and reports included but were not limited to: Traumatic Brain Injury in Florida: A Statewide Assessment, Marion County Children's Health Needs Assessment; Districts 3/13 HIV Prevention Plan; Hernando County Comprehensive Community Health Needs Assessment; Total Quality Improvement Training for Levy County Health Department Utilizing the Plan-Do-Check-Act Model as Funded by the National Association of City and County Health Officials (NACCHO); Marion County Safe and Drug Free School Regular and Set-Aside Evaluations; Central Florida Community College Professional Development Initiative Evaluation; Suwannee and Lafayette Counties Health Needs Assessment; Bradford and Union Counties Health Needs Assessment; Evaluation of Local Public Health System Effectiveness Using the 10 Essential Indicators (in seven counties); and various other evaluation and needs assessment studies; and various other community and special population health needs assessments. Qualitative and quantitative data gathering and analysis skills were essential to this position. Design and analysis of surveys, focus groups and structured interviews were routinely performed.

During the last three years of my tenure as Senior Planner, I served both as the Director of Community Initiatives and the Director of Development and Communications. Responsibilities included planning and managing WellFlorida's open house and grand opening for our new building in November 2006 and our 35th anniversary celebration; coordinating the *Community Offerings: Creating Solutions to Health Care Coverage* conference and authoring the conference proceedings; overseeing the development of the five-year marketing plan; overseeing process of WellFlorida's name change including new tag line, positioning statement and logo; funding appeals to Boards of County Commissioners; grantseeking from foundations; grantwriting (e.g. I was sole author of a federal Healthy Communities Access Program Grant for Lake County, Florida and a federal community health center grant for Hernando County, Florida). In September 2004, the federal government announced that Lake County was awarded the grant for \$1.1 million in 2004-05 and for \$2.4 million for the three-year project period. Also, wrote a federally qualified health center new access point grant for the Hernando County Health Department. The Health Resources and Services Administration grant was awarded in May 2005 and the health center began operations in December 2005.

The Director of Community Initiatives was and is the main healthcare policy analyst for WellFlorida. As the Director of Community Initiatives, the primary responsibility was coordination of the operations of the WellFlorida's Community Services Department. This role required extensive cultivation of relationships with a wide variety of businesses, governmental organizations, not-for profit community-based agencies and citizen's groups throughout the 16-county region. The development of these relationships has been critical in expanding the Council's role as the leader in the delivery of health planning services. Public speaking was an ongoing and essential component of this position.
