Course Overview

The Professional Skills Seminar is one-credit S/U course designed to serve as a bridge between MHA graduate coursework and the world of practice, with a focus on developing career planning and professional skills. Some time is devoted to interpreting CAHME criteria, MHA program goals and underpinnings of the curriculum.

The value in this course is in being fully present, engaged, participatory and inquisitive. In addition to in-class lectures, panel discussions, and participation, there are a number of other outside seminars, professional meetings and other offerings to broaden students’ exposure to the field.

Relationship to Program Outcomes

This is the one class in the curriculum that allows first and second-year students to interact together with industry experts, practitioners, and alumni in informal non-academic discussion and small group exercises. Speakers provide diverse career previews and strategies for professional networking and personal presentation, directed to the early career MHA student. Assessment tools include attendance, active participation, and textbook chapter synopses/reactions statements. Questions of speakers and direct engagement is required. Students are challenged to examine learning activities for relevant competency development.
Course Objectives and/or Goals

The objectives of the course are designed to contribute towards mastery of key competencies for the MHA program. Course assignments, activities, and assessments are linked to the learning objectives and competencies.
